

MARITIME ENVIRONMENT PROTECTION SYSTEMS

Rotary Pumps | Automatic | Redundancy

Vacuum Unit

The Ocean Clean Vacuum Unit will create sufficient vacuum to transport all kinds of food waste from numerous feeding stations to treatment facilities. It is designed to perfectly suit its purpose so it is sized according to the needs of the ship's food waste system. Safe operation is ensured by sturdy sensors and valves.

Number of vacuum pumps will depend on size of the FW System. A custom-made design will be created for each individual project.

Vacuum Unit

Contact Ocean Clean for original, reliable and genuine spare parts.

FOR OCEAN'S SAKE

Heavy duty valves and sensors for reliable operation. Equipped with variable number of vacuum pumps.

- Different sizes
- Robust design
- Powerful pumps
- Stainless steel
- Coating on request
