

MARITIME ENVIRONMENT PROTECTION SYSTEMS

Fully Automatic | USPH Compliant | Safe

Infeed Station

The Ocean Clean Food Waste Disposer Unit will accept all kinds of food waste. Optional built-in food waste disposer will grind it down to small particles to be easily transported by the food waste vacuum system. It is sized according to the needs of the ship's food waste system. Safe operation is ensured by sturdy sensors and controls.

A custom-made design can be created for individual projects.

Infeed Station

Contact Ocean Clean for original, reliable and genuine spare parts.
